Chiltern Connections Ltd supplying products and services throughout the electronics production industry

*DATA SHEET*

**COILY GROUND CORDS**

*Codes: see below*

*These quality ESP Coily Ground Cords provide high operational strength and durability. The electrical continuity is achieved by utilising multi-end tinsel conductors sheathed in a double layer of insulative polyurethane. The cord is highly flexible and will expand up to eight times its relaxed state and due to the excellent inherent "memory" of the cord material these products will return to their original shape and size time after time. At either end of the cords an extremely efficient flexible strain relief has been incorporated into the design to help ensure maximum life from these products.*

*The standard resistance built into each cord set is 4.4mohm. Other values are available upon request*

<u>Item</u>	<u>Code</u>	<u>Size/Value</u>
1	CCL/CGC/01	10mm stud to 10mm press stud / 4.4mohm / 1.2m
2	CCL/CGC/01B	As above but colour Blue
3	CCL/CGC/03	10mm stud to banana plug and croc.clip /4.4mohm / 1.2m

*A BT approved product*
