

Data Sheet

Black Conductive Plastic Boxes

Codes: please see below

A comprehensive range of conductive plastic production and storage aids suitable for the protection of electrostatic discharge sensitive devices (ESDs).

These boxes are made from a specially developed conductive polypropylene plastic material, providing not only a permanently conductive features but also excellent physical protection during storage and transportation. These boxes comply with the electrical conductivity requirements as described in BS EN100015.

With aesthetically rounded corners and a textured finish now built into the design including positive action clips for lids these reusable and cost effective containers can provide sound protection for a wide range of electronic components and assemblies

A choice of high and low density foam inserts is available and can be matched to suit individual requirements.

Surface resistivity - <math>10^5</math> ohms/sq.

Item	Size(mm)	Box Only	HD Foam Only	HD/LD Foam
1	38 x 38 x 12	CCL/CPB/A1	/A2	/A3
2	74 x 52 x 22	CCL/CPB/B1	/B2	/B3
3	90 x 64 x 19	CCL/CPB/C1	/C2	/C3
4	108 x 82 x 17	CCL/CPB/D1	/D2	/D3
5	155 x 100 x 30	CCL/CPB/E1	/E2	/E3
6	230 x 130 x 22	CCL/CPB/F1	/F2	/F3
7	230 x 130 x 31	CCL/CPB/G1	/G2	/G3
8	230 x 130 x 40	CCL/CPB/H1	/H2	/H3
9	253 x 152 x 38	CCL/CPB/J1	/J2	/J3
10	304 x 228 x 38	CCL/CPB/K1	/K2	/K3

All information given in good faith but without warranty.
